Hiring Manager.

hiringmanager@outlook.com

Dear Hiring Manager.

I am excited to apply for your position of front-end developer at your company [COMPANY NAME]. Your commitment to high-end, client focused products aligns with my passion for creating tailored digital experiences. I'm passionate about this position and motivated to make a meaningful impact at this company.

I am a student at Noroff University where I study front-end development. I have built fully responsive ecommerce websites where I focused on intuitiveness and user experience. I have worked in a team and independently, and thrive in both. I'm motivated to contribute my front-end development and design to your team.

I believe I would be a great fit for this role as I can bring my experience to your company's projects. I can see that your company takes great pride in providing high-end products for your clients. Here I believe I can contribute with my passion for creating products that are tailored to what the client envisions. I was impressed when I saw your recent project [PROJECT NAME] for its modern approach.

I am very motivated for this role, and I thank you for your time. I can be reached on inger_mathilde@hotmail.com or +47 41101465 and would love to schedule an interview. I look forward to hearing from you.

Sincerely,

Inger Mathilde Eiklund
